

The Calc-An-Acre™ II

Speed, Area, Distance and RPM Monitor

The new Calc-An-Acre II adds even more value to the original low-cost acre counter. In addition to providing accurate speed, area and distance measurement, it will now independently monitor the RPM of a shaft.

3 independent area counters

2 independent hour counters

An area per hour function

Width reduction feature to measure the effective coverage area in spraying applications

It remains compatible with existing Calc-An-Acre harness installations. The versatility of the Calc-An-Acre II makes it a tool for all seasons that quickly pays for itself!

Micro-Trak Calc-An-Acre		
Part #	Description	Price
MT01000	Calc-An-Acre II w/ Console, wheel speed sensor, hardware & Instructions	\$243.49

The FlowTrak™ II

Application Monitor

The new FlowTrak II is a user-friendly monitor for farmers, custom applicators and groundskeepers needing a simple, low-cost way to achieve greater accuracy when applying liquid chemicals.

NEW features include "control" output that can turn a valve or pump On/Off for Batch control.

TRIPLE counters for volume and area

Track tank volume

Tank alarm standard

New "No Flow" and "No Speed" warning messages

The Flow-Trak II provides a complete picture of critical spraying functions and an accurate record of work performed.
