

Southern Cross Soybeans

LATE GROUP III

MALACHI

Southern Cross

3.8 N, GENRR2Y

NEW for 2010

Excellent new Genuity™ Roundup Ready 2 Yield™ Variety

- ▶ Uniform finished look
- ▶ Very good shatter resistance
- ▶ Medium plant height works in all row widths
- ▶ Handles stress well
- ▶ Excellent Cyst nematode resistance to R3 and MR14 strands
- ▶ Approx. 3,100 seed/lb

MID-LATE GROUP III

LUCAS

Southern Cross

3.8 N,RR

Big, tall, & tough for a group III variety

- ▶ R3 & MR14 SCN resistance
- ▶ Above average SDS tolerance
- ▶ Outstanding stress tolerance
- ▶ Excellent shatter resistance
- ▶ Contains RPS 1C phytophthora gene
- ▶ Excellent seedling vigor and emergence
- ▶ Performs well in all row widths
- ▶ Approx. 2,900 seed/lb

EARLY GROUP IV

LOT

Southern Cross

4.1 N,RR,STS

Consistent top yielding variety with excellent disease package

- ▶ Medium- tall, bushy plant with branchy canopy
- ▶ Adaptable to various soil types
- ▶ Excellent emergence
- ▶ Outstanding choice for double crop
- ▶ Excellent shattering resistance
- ▶ Excellent tolerance to SDS, SCN, frogeye, stem canker, charcoal rot, and phytophthora
- ▶ Approx. 2,850 seed/lb

EARLY GROUP IV

MICHAEL

Southern Cross

4.2 N,RR,STS

Consistent YIELD leader!

- ▶ Tremendous plant health—BIG YIELDS!
- ▶ Roundup / STS stack—Trait flexibility
- ▶ Excellent early vigor
- ▶ Good brown stem rot resistance
- ▶ Resistant to frogeye leaf spot
- ▶ Avoid wet-natured type ground - works well in all other soil types
- ▶ Good tolerance to SDS
- ▶ Contest winning variety
- ▶ Approx. 2,400 seed/lb

Southern Cross Soybeans

EARLY GROUP IV

JERICO

4.2 N,RR

Top yielder in research across KY, IN, & Southern IL

- ▶ Adaptable to all soil types
- ▶ Great emergence and standability
- ▶ Resistant to stem canker
- ▶ Excellent frogeye tolerance
- ▶ Excellent green stem tolerance
- ▶ Approx. 2,800 seed/lb

EARLY-MID GROUP IV

BENJAMIN

4.3 N

High yields & excellent stress tolerance in new non-gmo

- ▶ Conventional Market Leader!
- ▶ Excellent PRR Tolerance - Rps1c gene
- ▶ Excellent SDS tolerance
- ▶ Medium-tall / medium-bush with good lodging scores
- ▶ Excellent shattering resistance
- ▶ R3, MR13 cyst nematode package
- ▶ Approx. 2,900 seed/lb

EARLY-MID GROUP IV

ENOS

4.3 N,LL

NEW for 2010

Exciting new genetics with LibertyLink technology

- ▶ Extremely high yielding genetics across varying soil types and yield environments
- ▶ Tall plant height with great standability
- ▶ High tolerance to SCN, SDS, and Frog Eye
- ▶ Semi-bush variety that is adaptable to all row widths
- ▶ Approx. 3,000 seed/lb

MID GROUP IV

CALEB

4.4 N,RR,STS

Michael parentage provides excellent yield potential!

- ▶ RR & STS stacked variety with high yield potential
- ▶ Excellent frogeye tolerance
- ▶ Good PRR tolerance for wet areas
- ▶ Medium plant height that stands well
- ▶ SCN resistance to R3 and MR14 strands
- ▶ Good emergence and standability
- ▶ Approx. 2,300 seed/lb

Southern Cross Soybeans

MID GROUP IV

AARON

4.5 N,STS

Southern Cross

High-yielding STS choice for non-gmo premiums

- ▶ STS herbicide option
- ▶ Strong cyst nematode package
- ▶ Works well in all soil types
- ▶ Medium-bush plant type
- ▶ Excellent emergence and standability
- ▶ Medium height - works in all row widths
- ▶ Proven performer - even under stress
- ▶ Approx. 2,900 seed/lb

MID-LATE GROUP IV

RUFUS

4.7 N,RR,STS

Southern Cross

Exciting new variety with very attractive plant type

- ▶ Medium plant height with excellent standability
- ▶ Resistant to stem canker
- ▶ Excellent SDS tolerance
- ▶ Outstanding phytophthora package
- ▶ Responsive to fungicide application
- ▶ Approx. 3,500 seed/lb.

MID-LATE GROUP IV

ELI

4.7 N,RR,STS

Southern Cross

Good choice for high-yielding productive soils

- ▶ Very good SCN package
- ▶ Medium height, bushy plant type
- ▶ Good frogeye and SDS ratings
- ▶ Best suited as an early planted, full-season variety rather than a double-crop choice because of shorter than average plant height
- ▶ #1 yielding variety in 2005 Research Trials
- ▶ Approx. 2,700 seed/lb

LATE GROUP IV

GALILEE

4.7 N,RR

Southern Cross

Excellent double crop variety with impressive yield potential

- ▶ Good stress tolerance
- ▶ Loaded with agronomic traits
- ▶ Good emergence and canopy width
- ▶ Excellent SDS tolerance
- ▶ 1c Phytophthora gene
- ▶ Tall plant height with excellent standability
- ▶ Approx. 3,100 seed/lb

Southern Cross Soybeans

LATE GROUP IV

Southern Cross

TITUS

4.8 N,RR

Proven workhorse that delivers consistent big yields!

- ▶ Excellent choice for double-crop
- ▶ Very good oil and protein levels
- ▶ Upright plant type with good emergence and standability
- ▶ Tall plant that works with all row types
- ▶ Stable variety - performs well on all soils
- ▶ Avoid phytophthora problem situations
- ▶ Proven leader year after year
- ▶ Approx. 3,200 seed/lb

LATE GROUP IV

Southern Cross

JOSHUA

4.8

Proven non-gmo that performs well at lower seeding rates

- ▶ Lower populations help standability in high -yielding environments
- ▶ Medium bush plant - works on all soil types
- ▶ Good brown stem rot resistance
- ▶ Tall plant that works with all row types
- ▶ Good choice for non-gmo premiums
- ▶ Works best in fields with little or no soybean cyst nematode pressure
- ▶ Consistent results year after year
- ▶ Approx. 3,400 seed/lb

LATE GROUP IV

Southern Cross

SHILOH

4.9 N,LL

Very impressive late group IV with LibertyLink trait

- ▶ Tall attractive plant with excellent standability
- ▶ Excellent choice for double crop
- ▶ Outstanding choice for fields with glyphosate resistant weeds
- ▶ Wide range of geographic adaptability
- ▶ Approx. 2,900 seed/lb

EARLY GROUP V

Southern Cross

DAMASCUS

5.0 N,RR,STS

RR & STS stack variety with high yield potential

- ▶ Good overall health package
- ▶ Good choice for clay or loam soils
- ▶ Excellent oil & protein levels
- ▶ Good PRR tolerance for wet areas
- ▶ Medium-tall plant that stands well
- ▶ Very good tolerance to stem canker
- ▶ Good emergence and standability
- ▶ Approx. 3,400 seed/lb
